This assignment was locked May 2, 2023 at 11:59pm.

## SEIS-610

### Elaboration Deliverable #2 (50 points)

In elaboration #1, analysis was done through the writing of a play. In elaboration #2, it is time to finish the analysis and do the initial design. In order to accomplish this, the following deliverables are required.

#### Using Plant UML

1. Create a sequence diagram showing the interactions **of your play. ( 25 points)**
2. Create a class diagram from the sequence diagram created in step #2. **(25 points)**

Do not submit hand-drawn diagrams.
